Select one or more:

- ☐ byte x = (byte)100L;
- ☐ byte z = (byte)100L;
- ☐ long y = (byte)100;
- ☐ int w = (int)888.8;

Question 26

Not yet answered

Marked out of 2.00

Flag question

Eclipse IDE provides many user friendly features such as:

Select one or more:

- ☐ Error Dialog box
- ☒ Auto completion
- ☒ Syntax highlighting
- ☐ Class Dialog box

Question 27

Not yet answered

Marked out of 2.00

Flag question

Which of the following statement(s) is/are correct? **Tick all correct answer(s)**. No partial marks and no negative marks.

Select one or more:

- ☐ If a class lacks a no-arg constructor, the compiler always creates a default constructor.
- ☐ The compiler creates a default constructor only when there are no other constructors for the class.
- ☐ The default constructor invokes the no-arg constructor of the superclass.
- ☐ The default constructor has the same access as its class.
- ☐ The default constructor initialises method variables.

Question 28

Not yet answered

Marked out of 2.00

Flag question

Select the **missing code lines** from the dropdown provided.

The java code given below should find the perimeter of a rhombus.

But, line numbers **5** and **11** are missing.

```
1. import java.io.*;
2. class Perimeter
3. {
4.     public int getPerimeter(int side)
5.     {
6.         -----Missing code -----
7.     }
8.     public static void main(String a[])
9.     {
10.        Perimeter obj = new Perimeter();
11.        -----Missing code -----
12.    }
13. }
```
